

# Learning Together

Using telepractice with First Nations peoples

NGO Telepractice Venture

AbSec Conference – 14 June 2023

**Presented by:** Melanie Hughes – **Karitane**  
Kate Spalding – **Parenting Research Centre**  
John Byrne – **AbSec**  
Dorothee Crawley – **CatholicCare Wilcannia-Forbes**

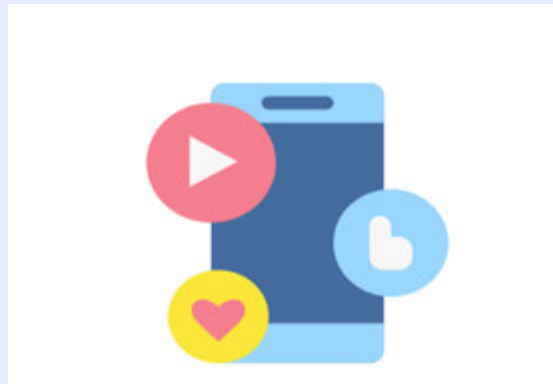

# The NGO Telepractice Venture

- National
- Funded 2020-2023
- Sought to assist NGOs with delivering child and family sector services using telepractice
- Community of Practice approach
- First Nations inclusion

# What is telepractice?

# Telepractice – It's a spectrum

High Tech

Least Impoverished

Low Tech

Most Impoverished

# Telepractice – It's a spectrum

**First Nations People**

# The Digital Gap – The ADII

**Target 17:** By 2026, Aboriginal and Torres Strait Islander people have equal levels of digital inclusion

People living in Australia's 1,100 remote First Nations communities are among the most digitally excluded Australians.

... the key barrier to digital inclusion was Affordability, especially in relation to income.

# The Digital Gap – The ADII

**CLOSING THE GAP**  
IN PARTNERSHIP

Outcome 17:  
Aboriginal and Torres Strait Islander people have access to information and services enabling participation in informed decision-making regarding their own lives

**Target 17:** By 2026, Aboriginal and Torres Strait Islander people have equal levels of digital inclusion

Indigenous Australians have lower levels of digital ability, with only 28% having medium to high digital ability, compared to 52% of non-Indigenous Australians.

# Specific Issues – Practical Problems

## Infrastructure Issues

Trust

# Specific Issues – Practical Problems

Telepractice – It's a spectrum

High Tech  
Least Improverished

Low Tech  
Most Improverished

## Impoverished Medium

## Cultural Sensitivity and Communication

# Specific Issues – Practical Problems

Technological Skill

Privacy & Confidentiality

## Lessons Learned – Take Aways

- Choose the right medium for the client – Be prepared to go “Low Tech” if necessary. Make sure that your policies and practices will still work effectively with impoverished mediums.

## Lessons Learned – Take Aways

- Have a “plan B” - plan for potential problems/outages/limitations

## Lessons Learned – Take Aways

- Supplement your face-to-face meetings with telepractice to build a base of trust to operate from.

## Lessons Learned – Take Aways

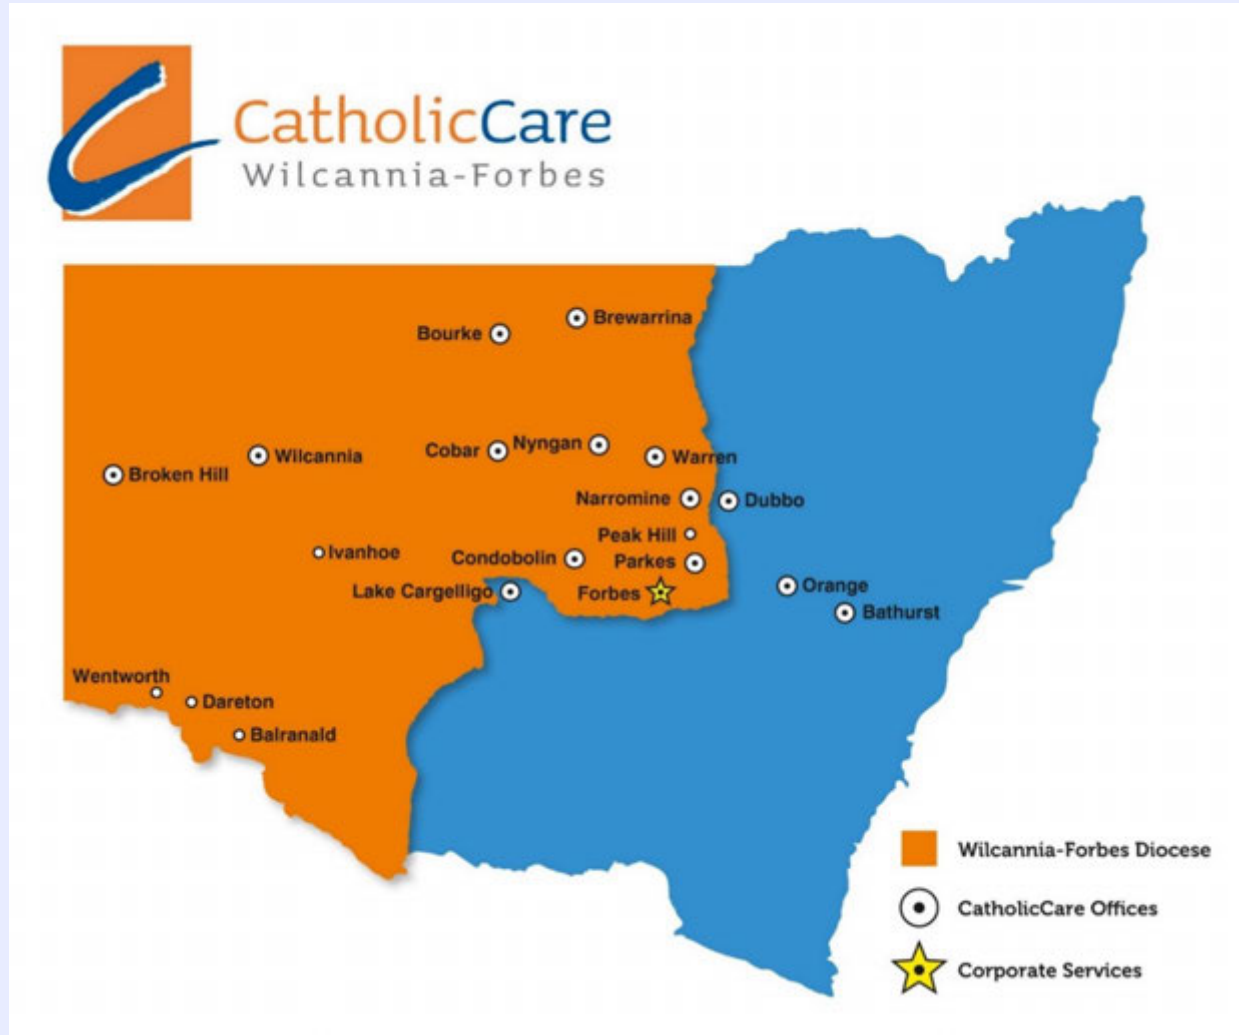

Unless your org is funded  
for a techno-revolution,  
Adapt the solution to the  
community,

NOT

the community to the solution

# Telepractice Lessons

Natasha Harris Reads 'Tucker'

A woman with long dark hair, wearing a brown jacket, is shown in profile reading a book. The book cover is orange with the title 'Tucker' in white. The cover art features a stylized tree and various Aboriginal patterns. The background is a large, colorful illustration of an underwater scene with a large sea turtle, jellyfish, fish, and a crab on the seabed.

Natasha Harris  
Aboriginal Family Worker

## Workshop – discuss in pairs

- Think of a time when you have experienced telepractice (e.g. telehealth) yourself
- What did you like/not like about it?
  - Discuss with the person next to you

# Workshop – small group discussion

Thinking about telepractice with clients:

- What's worked/could work – why?
- What didn't work/wouldn't work – why?

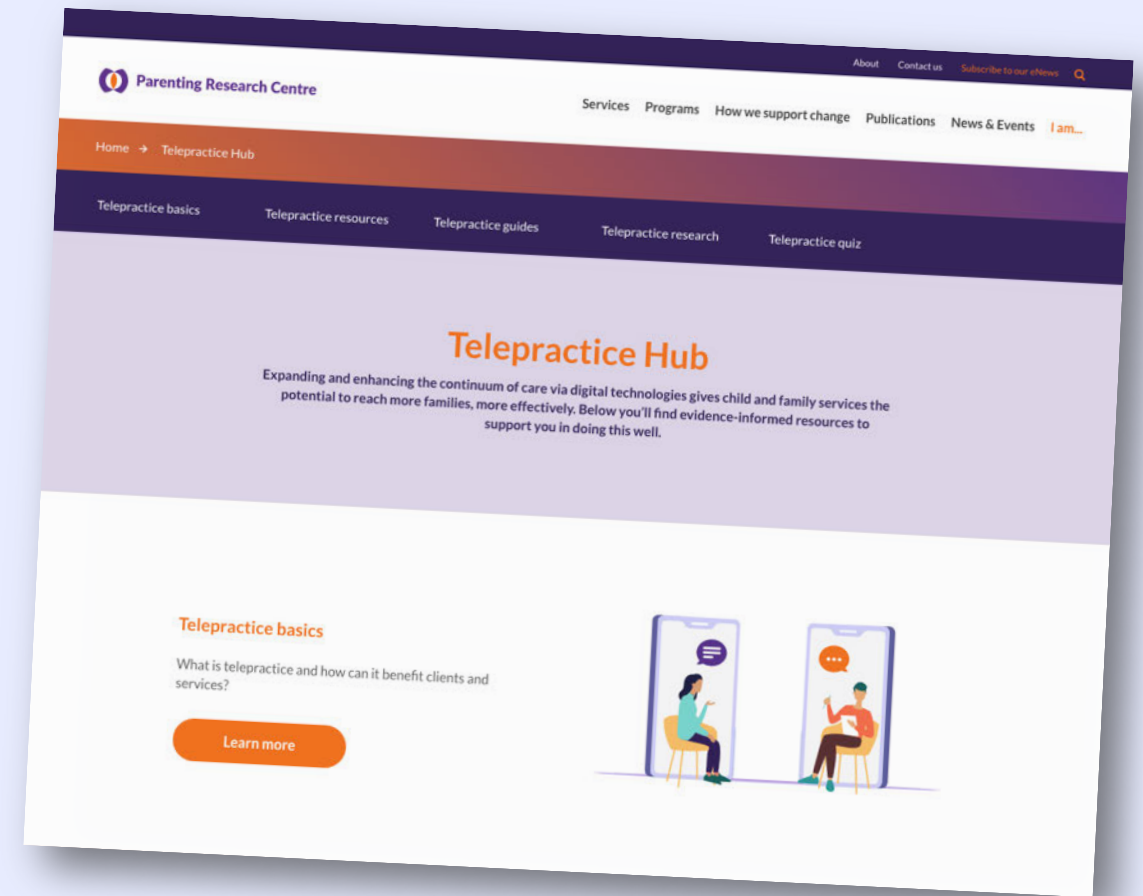

## Workshop – reflection

- Choose 3 words that best represent what you've discussed or heard today
  - Add to Mentimeter
  
- Discuss Mentimeter results back in the group

# Telepractice Hub

- Telepractice basics
- Telepractice resources
- Telepractice research
